There are rumors in the air of another session of the Grand Orient in the near future and if tentative plans now under consideration attain maturity, the convocation of princes will be held here in the city instead of in Graniteville, where the ceremonial usually takes place. Customarily the yearly journey over the ice floes has been held on the second Friday in December, but there is a possibility that an earlier date will be fixed this year.

Friends of Miss Abbie Moxley, a Spaulding high school graduate, who taught in the Bellows Free academy at Fairfax after her graduation from the state normal school in Castleton, will be interested to learn that she holds a responsible position in the graded schools of Medford, Mass.

Rain delayed the work of completing the erection of the George B. Milne mausoleum at Elmwood cemetery to-day, although Contractor W. F. Howland and his men have been favored by excellent weather on the whole. One corner of the big roof stone rests on the structure and the work of placing it in its final position will be only a matter of a few days. The interior is practically completed, albeit the granite work must be pointed up in places.

Plans are going forward for the entertainment of James Duncan, vice-president of the A. F. of L., and a member of the Root commission which visited Russia. Arrangements are in charge of the Central Labor union of Barre and vicinity and they are to be discussed at length in the regular business meeting of the central organization this evening. As president of the granitecutters' international association, Mr. Duncan is well known in Barre and labor does not propose to allow his visit to end without a proper demonstration. Mr. Duncan is to speak in the opera house Friday, Oct. 12 on the subject, "The Soul of Russia."

So far as its contract with the city council's special band committee is concerned, the Barre Pipe band made its last public appearance of the season last evening, when an excellent concert was given in and about City park. A pleasing repertoire of melodies suited to the peculiar notes of the pipe was rendered and the players were cordially received by a sizeable crowd. In the absence of band music, the pipe and drum musicians have filed a void that would have been particularly noticeable during the summer had not their services been available. Interest in the "highland band" is not to lag, as the pipers and drummers plan to hold regular rehearsals during the winter months.

Mr. and Mrs. John Thorn, who have been guests in the home of Mr. and Mrs. E. J. Whitcomb on Hollister hill in Marshfield while passing a month with friends in central Vermont, left Barre this morning for their home in Mount Vernon, N. Y. The property consists of four acres of land and a house and barn. If they succeed in disposing of a large restaurant business in Mount Vernon they will remove to South Barre late in October. Otherwise they will not take possession of the property purchased by them until next spring.

Fifteen young people, comprising members of Miss Isabella Thompson's class in the Sunday school of the First Presbyterian church, gathered at her home on Spaulding street last evening to make a formal farewell on the eve of her departure from the city. There was an enjoyable round of games and members of the class contributed musical numbers to an impromptu program. During the evening Rev. Edgar Crossland, speaking in behalf of the class, presented Miss Thompson a handsome pendant and chain. The recipient responded feelingly. Dainty refreshments were served before the party dispersed. Miss Thompson leaves Barre to-morrow for Fall River, Mass., where she is to enter the training school for nurses in the Fall River hospital.

Wanted: 100 workmen to call at 48 No. Main street and let me show them how they can obtain some of that black muck soil of the upper Everglades south of Lake Okechobee, Fla., where 10 acres will grow you a crop 365 days in a year, where my eldest son will be planting Irish potatoes next week, from seed saved from our last spring's crop, and a crop of corn grown on the same land this summer; where you can grow, without a bit of fertilizer, almost unbelievable yields of Irish potatoes, corn, celery, strawberries, egg-plant, cabbage, onions, or about every known northern vegetable, also the clovers, blue grass, Sudan grass, sugar cane, dashen, chufus, rice, peanuts and all sorghum grains; soil 10 feet deep of decayed vegetation; will burn to ashes; sub-irrigated and thoroughly drained; soil analysis over three per cent. nitrogen. Those wanting to learn about southern Florida worked me good and hard all last week. I'll be there this week only. Call in and see maps, soil and photo of our huge tractor now working the Everglades. Service; the Keynote to Our Garment Success

Now is the time for you to think about your Fall Coat or Suit.

You will be looking for something smart, of course, finely tailored and as serviceable as it is smart.

Women are more than ever careful about value, too, since war conditions have raised prices and made qualities uncertain.

In spite of these conditions our connection with the best houses has stood us, and you, in good stead.

Here you will find a most notable showing of the new style ideas of the metropolitan fashion centers, with fabrics that are the season's best.

Season's Coat Styles

To the many women who look to us for the assured styles of each season, we announce a notable showing of Coats, just out of the box.

These are Suits that you will want all the more to see because of their sound values at a time when conditions are making values in general rather uncertain.

In such smart fabrics as the new Pom Pom Cloth, Burella, Mixtures, Silverton, Poiret Twill, you will find military, Russian, conservative tailored, and many other desirable effects.

In the Printz Beiderman and Wooltex lines you will find all wool fabrics, with that exquisite tailoring you have come to expect in these garments. The price range is varied and reasonable.

Ladies Tailored Suits

Coats and Suits with style alertness in every line are what is embodied in these our Ready-Made Garments.

You will find in our Garment Department a most extensive assortment of Suits and Coats, ready to wear.

The style lines are absolutely correct, being faithful reproductions of the latest accepted Paris models.

The quality of each material used is intended to complement the beauty of each design.

The infinite pains taken in the finishing is seldom found in Ready-to-Wear Garments retailed at double the price.

The prices of the garments are surprisingly less than you would expect to pay this season. See this line of Garments.

In Our Millinery Department

When in looking for garments do not forget to look over our line of New Fall Millinery. Here you will find just the shape and style you will like, to match your suit or coat. Our line is now complete in every detail. You will be surprised to see how reasonably these Hats are priced.

For the first time in several years R. C. Bowers is to forego the pleasure of his annual clam bake on the Montpelier road and persons connected with the Barre granite industry, including manufacturers in this city, East Barre, Montpelier, Waterbury, Northfield and West Berlin must wait until next fall for an outing that had come to be regarded as a fixture on the year's program. Very sensibly Mr. Bowers has decided to abandon plans for the clam bake as a war measure, inasmuch as it is an outing of a kind which food conservationists are trying to discourage. Locally, his decision meets with approval, although in the past some of the most enjoyable get-together meetings of the granite men have been held under Mr. Bowers' auspicious tent.
